JUNIOR DEVELOPER · IT & WEB DEVELOPMENT

Informatics graduate with a strong interest in software development, web technologies, systems and problem solving. I enjoy turning ideas into concrete projects, learning independently and improving through hands-on experience. I am looking for an opportunity where I can contribute to a professional team, learn from experienced developers and grow continuously.

EDUCATION

Upper Secondary Diploma in Informatics IIS Ramacca – Palagonia	2020 – 2026 Final grade: 83/100
--	--

TECHNICAL SKILLS

Web Development	HTML, CSS, JavaScript, responsive layouts, animations and interactive interfaces.
Backend & Databases	PHP, MySQL, SQL, database design and web application development.
Programming	C, C++, Java and C#; programming fundamentals and object-oriented concepts.
Systems & Networking	Windows installation/configuration, PC assembly and maintenance, networks and protocols.
Tools	Visual Studio Code, Visual Studio, Git and common software development workflows.

PRACTICAL EXPERIENCE & PROJECTS

WebUp's — CRM / SaaS Project

Practical project experience

Hands-on experience in a modern software environment involving web interfaces, application functionality and real development workflows.

WebUp's — Web Application

Practical project experience

Development and experimentation on a real web project, focusing on interface structure, functionality and practical software development.

NFC Application

Application project

Application work based on NFC interaction, with attention to user flow, functionality and practical technology integration.

Personal Web & Software Projects

Independent development

Built personal applications and interfaces to experiment with HTML, CSS, JavaScript, PHP, SQL and other technologies, learning through concrete problems.

KEY STRENGTHS

• Problem solving and logical thinking	• Fast learner and self-learning mindset
• Attention to detail	• Teamwork and communication
• Reliability and punctuality	• Flexibility and willingness to take on new challenges

PROFESSIONAL OBJECTIVE

To start my professional career in an IT or software development environment where I can apply my technical foundation, learn from experienced professionals and progressively take on more responsibility. I am particularly interested in web development, software engineering, systems and technology-driven projects.

LANGUAGES

Italian: Native **English:** Technical / professional working knowledge

AVAILABLE FOR NEW OPPORTUNITIES

Open to junior developer, IT and software-related opportunities.
